

TPM series (90W~180W , 1mV/0.1mA, with USB interface)

Introduction

TPM series are high precision programmable DC power supply with single output, output power rated from 90W to 180W with various model numbers. A remarkable feature of the TPM series is high resolution 1mV/0.1mA. Delay Time and Auto Run facilitate automatic test in different applications. USB/RS-232 interface, SCPI command sets make remote control easier. The smart cooling fan ensures low noise. Over load, over voltage, over current, over temperature and reverse polarity protections protect the TPM series and their load from unexpected conditions. High stability and high accuracy further make TPM series an ideal option for various applications requiring high resolution and accurate control.
